ABOUT ORION SYSTEMS LA

Orion Systems LA is a leading provider of professional low-voltage solutions for residential and commercial properties. We specialize in designing and installing integrated systems that deliver security, convenience, entertainment, and connectivity.

Our mission is simple — to deliver reliable technology, superior service, and long-term value. Every project is built on quality workmanship, industry-leading products, and a commitment to excellence.

QUALITY

We use only industry-leading products and materials.

EXPERIENCE

Years of hands-on experience in design and installation.

RELIABILITY

Solutions you can count on, built to perform and last.

SUPPORT

Professional support before, during, and after your project.

COMPLETE LOW VOLTAGE SOLUTIONS

DESIGN

Custom system design tailored to your needs.

INSTALLATION

Clean, professional installation by our experts.

INTEGRATION

Seamless integration of all your systems.

TRAINING

User training to ensure you get the most out of your system.

SUPPORT

Ongoing support and maintenance for total peace of mind.

NEW CONSTRUCTION FROM START TO FINISH

We partner with builders, architects, and homeowners from day one to deliver seamless low-voltage solutions built on a solid foundation.

BUILT RIGHT. BUILT SMART.

Proper planning and infrastructure make all the difference. We ensure every wire, conduit, and connection is installed correctly the first time—creating a reliable foundation for technology that performs for years to come.

OUR NEW CONSTRUCTION PROCESS

PLAN & DESIGN

We work with your team to plan every detail.

PRE-WIRE

Conduit and cabling installed during construction.

INSTALLATION

Devices and equipment installed professionally.

INTEGRATION

Systems integrated for seamless performance.

TEST & COMMISSION

Every system is tested and verified for reliability.

CLIENT TRAINING

We walk you through your systems and features.

PRE-WIRE INFRASTRUCTURE THE FOUNDATION OF RELIABILITY

- ✓ Structured Cabling (CAT6 / CAT6A)
- ✓ Conduit Systems
- ✓ Fiber Optic Infrastructure
- ✓ HDMI & AV Cabling
- ✓ Speaker & Audio Wiring
- ✓ Security & Camera Pre-Wire
- ✓ Access Control Wiring
- ✓ Network & Wi-Fi Planning

A STRONG START BUILDS A SMARTER FUTURE

When low-voltage systems are designed and installed correctly from the beginning, your home or business is ready for today—and ready for tomorrow.

SECURITY CAMERA SOLUTIONS

INTELLIGENT SURVEILLANCE FOR MODERN HOMES & BUSINESSES

Orion Systems LA designs and installs advanced surveillance systems that provide reliable protection, intelligent monitoring, and complete visibility for residential and commercial properties.

Whether protecting a luxury residence, gated entry, business, or construction site, our camera systems deliver real-time awareness and peace of mind from anywhere in the world.

BULLET CAMERAS

Designed for perimeter protection and long-range monitoring. Ideal for driveways, side yards, gates, and property boundaries.

DOME CAMERAS

Discreet and professional surveillance for entrances, patios, garages, and interior applications.

PTZ CAMERAS

Pan-Tilt-Zoom technology provides active tracking, optical zoom, and wide-area coverage for larger properties.

LPR CAMERAS

License Plate Recognition systems capture and identify vehicle information at entrances, gates, and private roadways.

SYSTEM FEATURES

- | | |
|---------------------------------|---------------------------------|
| 4K Ultra HD Recording | Remote Mobile Viewing |
| AI Human & Vehicle Detection | Cloud & Local Recording Options |
| Smart Motion Notifications | Multi-Site Monitoring |
| License Plate Recognition (LPR) | Day & Night Protection |
| PTZ Auto Tracking | Secure Remote Access |

APPLICATIONS

- | | |
|----------------------|--------------------|
| Residential Homes | Parking Areas |
| Luxury Estates | Construction Sites |
| Gated Communities | Warehouses |
| Commercial Buildings | Private Roadways |

From perimeter protection to intelligent vehicle identification, Orion Systems LA delivers surveillance solutions built for reliability, visibility, and complete control.

NEW CONSTRUCTION PROCESS

FROM PRE-WIRE TO FINAL COMMISSIONING

At Orion Systems LA, we handle every phase of your project from the very beginning to the final walk-through. Our proven process ensures a clean installation, reliable performance and a technology system built to last.

PHASE 1 – DESIGN & PLANNING

We start with a detailed consultation and review of your plans to design the right solution for your home.

Review floor plans
Equipment location planning
Camera coverage design
Wi-Fi heat mapping
Rack & infrastructure planning
Future expansion planning

PHASE 2 – LOW VOLTAGE INFRASTRUCTURE

We install the backbone of your home technology with clean, professional cabling.

CAT6 / CAT6A home runs
Fiber optic backbone
Speaker wiring
TV & media wiring
Camera cabling
Access control cabling
Intercom cabling
Alarm wiring

PHASE 3 – CONDUITS & BACK BOXES

We prepare all necessary pathways and mounting locations before drywall goes up.

Equipment rack preparation
TV back boxes
Speaker back boxes
Conduit installation
Pull strings
Service loops

PHASE 4 – TRIM OUT

After drywall, we install and mount all devices and equipment for a clean, finished look.

Device installation
Camera mounting
Wi-Fi access points
Intercom installation
Speaker installation
TV mounting

PHASE 5 – PROGRAMMING & CONFIGURATION

We configure all systems and networks so everything works together seamlessly.

Network configuration
Wi-Fi optimization
Camera programming
Mobile app setup
User access configuration
Remote access setup

PHASE 6 – TESTING & CLIENT TRAINING

We test every system and walk you through everything to ensure you are 100% comfortable.

System testing
Documentation package
Client walkthrough
User training
Warranty registration
